## City Water Pure Just Not "Tasty"

Water Department supervisor, Clarence Throp, and water plant chief, Harry Mathews, of the Belle Glade plant have just completed their annual short course on water and sewage plant operations at the University of Florida. They are being awarded certificates for successful participation in the course.

The course, the 23rd of its kind held in the state, was conducted by the General Extension Division of Florida in co-operation with the State Board of Health, the Florida Water and Sewage Works Operators' Association, the National Water Works Association and the University of Florida.

Throp said that the problems of water plant operations were discussed and that after listening to other state-wide problems, the Belle Glade water situation seemed minor. He referred to the fact that so much of the time our water has tasted strange—to put it mildly.

Throp learned that an algae in Lake Okechobee was blowing for the first time in history. This algae was blowing in the water and was being carried into the water. When this hydrogen sulfide meets the chlorine in the water, plant is caused to oxidize and returns to the water in solid form and then affects the taste and odor of the water.

The State Board of Health checks Belle Glade's water monthly and each time reports that there is no problem of health connected with the odor and taste. Throp said there was no cause for alarm at this point.

Other communities reported red worms in their water, or snails, and one community reported a problem in pollution so severe that it wasn't even named at the meeting. Their water was found to have a high bacteria count.

"All this water trouble is caused by low water table over the state," Throp said. "When the rainy season comes all the trouble will be taken care of. When I heard of the other cities' troubles I didn't think we had any trouble at all."

**REP. ROBERTS ASSURES COMPLETION SOON OF 41 N. OF OKECHOBEE**

The four and a quarter-mile stretch of uncompleted road on highway 41 will be repaired in near future, according to word received this week from Rep. Emmett S. Roberts.

Rep. Roberts together with Senator Bronson and Rep. Zelmenovitch called on Mr. Jones, chief of the State Road Department in regard to the very bad condition of the road in connection with Belle Glade Oil Company, who are contractors, the necessity for immediate completion, was emphasized.

"We have been assured that steps will be taken to insure more rapid progress and that within two weeks, with good weather prevailing, this road will be in passable condition," Roberts stated, adding, "the three of us intend to follow this matter up and feel confident that the road will be repaired in the near future."

## OUR SWIMMING POOL

What we want is a swimming pool. To play and swim and keep cool! Someone is going to call. I know. So dig down and give me the "dough". You'll be glad you gave enough. Because we know it will be the "stuff"!

This poem was composed by Mrs. R. E. Hotard's first graders. Voluntary donations from students then totaled \$121.14 the first of the week, in nickels and dimes from the children's allowances. They're saved for that swimming pool!

## FLY THE FLAG ON FLAG DAY - June 14

REMEMBER FLAG DAY, Tuesday, June 14. One hundred and seventy-eight years ago on that day the Stars and Stripes was born. Many have fought to keep it flying. Can we do less than to raise it proudly over our homes? Honor our flag on Flag Day, Tuesday.

## ELKS' FLAG DAY SERVICE

June 13 in Cleveland

Congressman Paul Rogers will be the principal speaker at the Elks' Flag Day Service which will be held on June 13 at the Cleveland Ball Park at 2:00 p.m. The date was changed as Mr. Rogers was unable to attend on the 14th.

## Council Okays 6% FPL Franchise

The Belle Glade City Commission has passed on second and final reading the controversial franchise with the Florida Power and Light Company whereby the city will receive six per cent rebate each year for the 30 year period of the contract.

For nearly one hour the commission heard half a dozen interested parties wrestle with the idea of entering into the 30-year agreement. Led by Jack Throp, produce broker here, the committee said the commission had no right to decide without a referendum. It was also brought out that any contract should not be 30 years long.

R. D. Hill, division manager, and C. A. Chase, district manager of Florida Power and Light, were on hand to answer any and all questions. Both said they had explained matters of the contract to each commission member.

The Belle Glade Chamber of Commerce reaffirmed its stand for passage without referendum. Others there said they had no desire to operate a private city power plant or contract with either power supplying in the near future. Many arguments disfavored allowing the 30 year pact.

Councilman Chase read figures which would tend to prove that locally rates were lower as provided by FPL, than in other areas.

The FPL representatives pointed out that 121 other communities had entered into the 30-year agreement. He stated that revenue from residential and commercial sources amounted to over \$262,000—six per cent of which is about \$14,000 which is returnable to the city under the new contract.

There remains three years on the old 30 year contract signed by the city in 1922. Some there protested that there was no need to decide the issue immediately.

Chairman-Mayor Walter Ashley, said still more time was needed for facts and figures before deciding. Councilman Chase called for a second reading. Then came the vote, 3-2 with Ashley and Z. T. Ingram turning thumbs down. Ingram who previously voted for the contract and said, "A man can change his mind, can't he?" He wanted a referendum vote before the pact.

As a result of this action, following second publication of the agreement, the city will enter into the pact.

Very sincerely yours, Gladys C. Clayton (Mrs. B. S. Clayton)

## Stocks Dominate Demand At Market

Demand for stocker cattle, particularly steers, and for feeders of high quality English breeding, continue to be the dominant products at the Glades Livestock Market.

Several inquiries from the North regarding availability of utility and commercial animals, indicate an improvement in slaughter call of this type, according to Manager W. H. Spread of strikes and one or two other unfavorable factors could develop to offset this one favorable factor. There appears to be a good foundation to present price levels.

Total this week: 1,308 cattle, \$82,831.74.

**MONDAY, June 6**

1,066 cattle, \$68,244.95, 13 calves, 12 bulls, 229 calves, 49 heifers, 437 steers, 242 cows, 49 percent of no. and 48 percent of money to slaughter.

## Swimming Pool Fund Nears 33% Of Goal

House to house canvassing began Wednesday to collect funds and pledges for the Belle Glade swimming pool. Mrs. Edwina Young, executive secretary of the Chamber of Commerce reported that "workers collected \$1,472 for that one day."

Mrs. Young went on to say that only one third of the town had been covered with no reports from the packing houses and only parts of the business districts. This makes the total pledged and collected thus far \$25,665.08 toward the goal of \$80,000.

Of the funds in so far a collection of \$203.80 was received from the Belle Glade Elementary and Junior and Senior High Schools. Mrs. Young said "falls would continue next week."

**LEE BRADDOCK** graduated "Cum Laude" at Darlington school for boys in Rome, Ga., on May 29. His parents, Mr. and Mrs. Roscoe Braddock, attended the graduation ceremony. B. B. Braddock, a younger son who also attended Darlington, was present in addition to his school studies. Lee was Editor-in-Chief of the "Darlingtonian" for the year.

Lee also participated in the "D" Club, a club which promotes good sportsmanship in inter-school competitions and played first trumpet in the band. Lee was Proctor for the years 1953-54 and 1954-55. He played half-back on the varsity soccer team for which he received a letter and also a letter in music and a Journalism trophy for valuable service to school publications.

This summer he turned down a very attractive offer in order to contribute his talents to the BSA for the summer. As he expressed it, "that is the only opportunity through the year to be a part" in the organization which he has enjoyed for so many years.

**"WHAT A THRILL!"** was the comment of Frances Sican, pictured in the J-3 Cub plane in which she made her solo flight last Sunday morning at the Belle Glade Airport.

Frances is the third student of the Glades CAP Cadets to solo. Starting her flying about two weeks ago under the instruction of her step-father, H. F. Hunter, she soloed after seven hours and 10 minutes of instruction. Mrs. Hunter who learned of her daughter's flying shortly before she soloed was so proud that she presented Frances with a lovely diamond dinner ring.

In addition to her flying, Frances is school reporter for the Belle Glade Herald, captain in the high school band, president of Junior Red Cross and one of the feature editors of the Rain Rod News. During the summer Frances plans to work for her private flying license.

**LOU ANN AUSTIN**, who in spite of illness and disability, headed with her class, an outstanding student and winner of the history award at Belle Glade High School, was awarded her diploma by her mother, Mrs. Ben Austin of South Bay, at Commencement Exercises here last Thursday night. Principal Frank O. Hobson presented the diploma to the mother in tribute to her untiring efforts in her daughter's achievement. Editor's note—We think the mother taught a cup and gown, too!

Lou Ann entered the Belle Glade Senior High School with the ninth grade and served during her freshman year as majorette in the High School Band. Shortly after the beginning of her sophomore year, she was starting with polo in its most vibrant form, just as she was starting work at a second year member of the band. She entered St. Mary's Hospital in West Palm Beach on October 13, 1953 completely paralyzed and remained in the iron lung for five weeks.

Even while yet a patient in the hospital she resumed her studies under a regular teacher who came to the hospital to hear her recitations, once she regained the use of her voice. This she was able to do after approximately two months hospitalization.

After six months hospitalization at St. Mary's she was transferred to Warm Springs, Ga., for treatment and therapy. She had regained the use of only one finger when she left for Warm Springs. While there she made rapid strides in her recovery and on her return to her home six months later, she was able to use her arms and hands with the aid of braces. Her oral class work continued at Warm Springs.

Lou Ann returned to her class at the beginning of the eleventh grade in a wheel chair, spending a half day each day at school and preparing her lessons at home. Her mother took her to school each morning and returned for her at noon.

During her senior year Lou Ann took regular work, remaining in school throughout the day, her mother bringing her in the morning, returning at noon with her dinner, and coming for her at the close of school each day. She not only carried full work for the twelfth grade, but took two extra subjects in order to secure the requisite number of credits for graduation.

Mrs. Austin, in commenting on Lou Ann's school work, expressed great appreciation to Principal Hobson and the faculty in arranging her classes on the first floor as it would have been impossible for her wheel chair to have negotiated the stairs and to her class mates for their unflinching kindness and courtesy in getting her from one class to another.

Lou Ann's home life is normal in every way. She is unfailingly cheerful, neither expects nor receives pity in her affliction, must use the every day give and take of family living with zest and good humor. She has as yet to raise herself from the bed or get into her wheel chair alone, she has been able to raise herself from the bed or get into her wheel chair alone, she has been able to raise herself from the bed or get into her wheel chair alone.

Mr. Rogers stated that the main difference is in the fact that the legislation would prohibit our sugar producers from having an additional quota of 185,000 tons, whereas only 100,000 tons of sugar is now granted to our domestic producers this year, 1955.

In the heart of the fabulous Florida Everglades where fresh winter vegetables for the whole nation can be produced. Investigate our possibilities.

## Belle Glade Leads In FEC Shipments Of Vegetables

A record carlot movement of over 13,000 cars from the Glades was registered during the '54-'55 season, according to H. E. Hotard, commercial agent for Florida East Coast Railways here. Hotard said this record rail movement firmly establishes Belle Glade as the largest perishable shipment point on the FEC railroad.

This record rail movement can be further augmented by the fact that at least a comparable carlot equivalent was moved from the area by trucks bringing the total approximately 13,000 cars to over 26,000.

The breakdown by commodity for the four top crops and mixed carloads shows 3,601 cars of celery, 3,034 cars of corn, 1,005 cars of beans, 1,445 cars of cabbage — the largest movement of this commodity in four years, and 2,311 mixed carloads, comprising carrots, celery, and endives. These figures are based on movement of the last week of June 3.

The previous high for total movement was established during the 1949-'50 season at 12,134 carlots moved by rail. Only four houses in the area are operating this week. They are: South Bay Growers, Bell Produce, Pioneer Growers, and Joe Hatton at the State Farmers' Market at Pahokee. The consensus of opinion is that corn and celery operations will drop out not later than June 25, here.

In summing up operations for the period, Hotard said, "Celery has shown a more or less steady movement. Beans have dropped, and it is noted that the combined movement of beans and corn will equal the early season movement of celery, but relatively new and has taken up the decrease in bean acreage."

Mixed vegetable movement shows a continued increase and it is a nearly three times that of the 1949-'50 season. "The movement of cabbage always depends on the market situation and potatoes are just about out of the picture in this area. Escarole and other leaf crops remain more on a level with a total for this season of 13 cars of escarole moving, and the greater portion of the mixed shipments consist of some celery, and other leaf vegetables."

Hotard said Under, Flagler and St. Johns Rivers are in season, opening into larger potato producing areas constantly and planting here has no longer economic value.

FEC totals thru June 6, place shipments at 2,250 cars ahead of last season. Breakdown follows:

## Rogers Encouraged Relief Will Be Given Sugar Producers In '55

Congressman Rogers attended a meeting Wednesday morning where the legislation announced its position with respect to sugar legislation, and stated he was pleased to find out that the administration has agreed with the proposal embodied in a bill, which he introduced in three readings.

That relief should be given to our domestic sugar producers. (2) That the quota system as it is now is to be abolished and that the quota system be replaced by a system of sugar to have a larger percentage of the increased consumption of sugar than the setting of the last quota.

A total of five training schools were held beginning April 24 through June 3, it was stated.

## Markhams Hosts To Beekeepers' Assn.

Mr. and Mrs. F. C. Markham were hosts to the South Florida Beekeepers Association at the Municipal Park Sunday when the group met for a meeting which is held every two months. The association is a branch of the Florida State Beekeepers Assn.

Members of the association include those who produce honey wholesale and retail and others who have a few hives just for a hobby. The president of the group is Ralph V. Wadlow of Palmdale who is a wholesale producer of honey. At the get-togethers he is also chief of Markhams and a covered dish brought by each of the other members completed the menu, which included all the trimmings.

The food was served in the park shelter, after which a regular business session was held. There was a discussion on the problems, prices, production, packing and promotion of the industry.

Attending were Mr. and Mrs. F. W. Rawlin, Hollywood; Mr. and Mrs. Walter Hatcher, Ft. Myers; Mr. and Mrs. N. Thieme of Delray Beach; Mr. and Mrs. John L. Winters, and Ray Bobb, Jr., Ft. Lauderdale; Mr. and Mrs. Clyde Wadlow and Ralph Wadlow, Palmdale; Isabel Hemperley, Ann McEchin, Mr. and Mrs. G. B. Campbell, Mr. and Mrs. E. F. Phillips, Miami; Jeff Alexander, Malcom and Neil Dubois, Jupiter; A. Uzzell, Moore Haven; L. B. Motts and sons, Jerry and Fresh Water Fish Commission Ray of West Palm Beach, Rev.

and Mrs. U. W. Malcolm, Mr. and Mrs. S. M. McAllister, Howard Markham, Betty Jo Markham, Carolyn Markham, Betty Ann Markham, Dorothy Mobley and Arthur Brower of Unatilla.

The next meeting will be held in September with Mr. Uzzell at Moore Haven as host.

## Army Recruiter To Be At Local Board Fridays

Sgt. Frank Pryor, United States Army recruiter will visit Belle Glade every Friday for convenience of local applicants who would like information about enlisting in the U. S. Army, it was announced today.

Pryor, an ex-military policeman has seen duty in Korea, Japan, Hawaii, Germany, Austria, Italy and other overseas areas. He is especially interested in young men who are qualified for the U. S. Airborne (paratrooper) military Police Corps, Corps of Engineers and Medical Service Corps.

"All branches of service are open in June," said Pryor and we have a few slots still open for direct assignment to Germany with the Armed Division."

His meeting place is the local office of Mrs. Quinn, 365 S. Main St., where qualification tests will be administered every Friday at 1 p.m.

Those desirous of information can meet him at that office or go directly to the recruiting office at 728 S. Dixie, West Palm Beach.

## James E. Waddell Graduates At Emory

Dr. James E. Waddell, N.W. Ave. C, Belle Glade, received a Doctor of Dental Surgery degree among 450 June graduates awarded the Marjorie professional degree degrees in commencement ceremonies yesterday at Emory University.

James M. Wall of Monroe and Atlanta was awarded a Bachelor of Divinity degree. Mrs. Wall is the former Mary Eleanor Kilder of Belle Glade.

The graduation address was given by Dr. Leonard Carmichael, secretary of the Smithsonian Institution, who spoke of the subject: "Slaves, Machines,

and Free Men."

Dr. Carmichael "challenged the graduates to look at the future with optimism." There are the gloomy ones who assert that our growing and fruitful technology is about to overpower us," he said. "But you can be the masters and not the servants of the machines and energy that science has given to humanity. May the intellectual power, the moral stamina, the religious truth, and the human compassion that you have learned make you equal to the startling surprises that will be yours in the years ahead."

The Emory group included 75 Bachelor of Divinity degrees, the largest graduating theology class in the institution's history. The first Master of Business Administration degrees were awarded to 13 students, and ten Doctor of Philosophy degrees were formally conferred. The Ph.D.s went to four June graduates and to others who had completed their work in December or March but returned yesterday for the official ceremonies.

Commencement was held on the Emory athletic field at 1 p.m.

Thirty per cent of all tax revenue collected by state governments in 1954, other than unemployment compensation, was obtained from special state automatic taxes. State taxes on gasoline alone accounted for one dollar out of every five taken in by the states.

## Chevrolet's special hill-flatteners!

162 HP V8  
180 HP V8

See that fine flat mountain yonder? You can iron it out, flat as a flounder ... and easy as whistling!

Just point one of Chevrolet's special hill-flatteners at it (either the 162-h.p. "Turbo-Fire V8" or the 180-h.p. "Super Turbo-Fire") ... and pull the trigger! Barr-r-r-r-o-o-o-oom!

Mister, you got you a flat mountain! At least it feels flat. For these Chevrolet V8's gobble up the toughest grades you can ladle out. And holler for more. They love to climb, because that's just about the only time the throttle ever comes near the floorboard.

And that's a pity. For there are engines that sing as sweetly as a dynamo ... built to pour out a torrent of pure, unadorned horsepower. Big-Bow V8's with the shortest stroke in the industry, designed to gulp huge breaths of fresh air and transmute it into blazing acceleration.

So most of the time they loaf. Even at the speed limit they just dream along. Light and easy as a zephyr, purring out an effortless fraction of their strength.

An engineer instantly understands why these V8's are so hyper-efficient ... how friction is held so low they need just four quarts of oil instead of the usual five or more ... how his valves let them "breathe" deeply for maximum power.

But you don't have to be an engineer to know that these are the sweetest running V8's you ever piloted. Just come in, slip behind the wheel, and point the nose at the nearest hill. These V8's can do their own talking ... and nobody argues with them!

Optimized at every inch.

# WASHINGTON NEWS LETTER

From

**WASHINGTON**—Richard A. Mack, formerly of Miami and Tampa (now of Tallahassee), has been appointed to the Federal Communications Commission to fill the vacancy earmarked for a Democrat Senator Holland and I recommended Ritchie for this position, and we are pleased that the President has now appointed him. Ritchie and his wife Susan are long-time friends of mine, and I know him to be a loyal Democrat, a capable, efficient person, well qualified by his service on the Florida Railroad and Utilities Commission for the job. It will be helpful to his service on this on his highly important Commission.

**Read Bill Progress**  
After a rather lengthy and at times bitter debate, the Senate passed a bill authorizing \$12½ billion in federal funds for highway construction. The bill which

finally passed was a version of the so-called Gore Bill, or the Democrats' bill.  
When the Republicans offered the Eisenhower highway program, it was defeated by a sizeable vote. Even many Republicans joined the Democrats on this measure after Senator Byrd of Virginia pointed out that its financing was un sound, that it ultimately would cost the taxpayers about \$1.35 for each dollar's worth of roads—35 cents being used for interest and handling charges to banks—and that it would place the whole road building program under a special commissioner who would operate independent of the Congress, and who could, if he wished, place roads only in "politically satisfactory" states.

The so-called Neuberger provision, placing regulation of advertising under federal control, was struck out as an invasion of states' rights, as was the Davis-Bacon provision. I was happy to support Senator Holland's amendment, deleting the provision for weight limitations on highways, but this amendment was defeated by a close vote.

In my opinion, the bill still has some rather weak and confusing provisions, but it is hoped that the House will make it strong, cleaner bill. The whole nation needs new roads, and we in Florida know its importance to our continued growth and prosperity.

**Adequate Aluminum**  
The Senate Small Business Committee, of which I am a member, recommended to the House of Representatives that 150 million pounds of aluminum scheduled for stockpiling the second half of 1955 be diverted to independent aluminum firms.

The Florida Aluminum Industry, which turns out the largest percentage in the nation of finished aluminum products, would be particularly hard hit by the Department of Defense stockpiling program. Defense requirements created a serious shortage of this vital metal, making it practically impossible for small manufacturers of aluminum products to obtain supplies to maintain even minimum production.

Congressman Fawcett has a worked actively on this problem also, for many of the affected businesses are in his District.

**Citrus Livestock Research**  
Florida will benefit from the Department of Agriculture appropriations bill recently approved by the Congress.

Increased funds will be available for expanded research on the menace of spreading decline in citrus trees, and screw worm

infestation of livestock, which should shorten the research period from four to two years. Additional money is also provided for more port of entry inspectors to combat plant pests entering through the Florida ports.

**IT'S JUNE! WHAT'S AHEAD FOR NEWLYWEDS?**

Living standards of this June's newlyweds will be better than those of any comparable group anywhere at any time in the past, say the editors of Changing Times, the Kiplinger Magazine. The best in food, clothing, housing and personal comforts will be routine expenses, not infrequent blessings of alms.

Fewer brides and grooms will live with parents or relatives. Apartments will not be hard to find. Homes in the suburbs will be economically attainable. The bride as a housewife will find it more than her parents as a time to play is concerned.

**\$6,889,961.60.** This is over a million dollars more than was turned in for the same month of 1954, and brings the total for the first eleven months of the present fiscal year up to \$69,224,906.45.

Sales tax payments received from dealers in Palm Beach County in May amounted to \$350,981.90.

## Allison Receives 25-Yr. Certificate

An internationally-recognized authority on soils and rangelands—two important subjects to the Glades lands around Lake Okechobee—Dr. R. V. Allison, was presented with a certificate of recognition of 25 years service to Florida Agriculture at the University of Florida Commencement exercises June 8th at Gainesville.

Dr. Allison, a native of Ohio, joined the Florida Experiment Station staff September 10, 1926, as soils specialist at the Everglades Station. In 1933, he was given leave to do special work with the U. S. Soil Conservation Service, Germany, and the U. S. Bureau of Chemistry and Soils.

He returned to the University April 1, 1937, as chemist and head of the soils department. He has been with the University since.

He returned to Everglades Station June 1, 1944, as assistant director in charge. On July 1, 1952, he became vice technologist.

Dr. Allison holds a Bachelor of Science in Agriculture degree from Purdue University, Lafayette, Ind., a Master of Science degree from Rutgers University of New Jersey; and a Doctor's degree from the same institution.

He is a member of the American Association for the Advancement of Science, and a fellow of that organization since 1926; the Soil Science Society of America; the American Society of Agronomy; the International Society of Soil Science; and Theta Chi, Alpha Zeta, Sigma Xi, and Kappa Delta Pi, honorary scientific societies.

He is a leading member of the Soil Science Society of Florida, a past president of the organization and its long-time secretary.

In World War I, he was bacteriologist with an Indiana chemical firm. He did research on biological development of acetone from corn. In 1923 and 1924, he was in Europe for research on microflora and microfauna of American soils.

From 1924 to 1926, he was chemist and soil biologist with the Tropical Plant Research Foundation of Washington, D. C. and Baragua, Cuba. This was a number of researches with a fellow scientist of a book on Cuban soils.

His first tour of duty with the Everglades Station in 1926 dealt with plant response on organic soils, especially as influenced by a number of trace elements, notably copper, manganese and zinc. He also worked on water control studies, and on importance of conservation studies and practices as related to the soil and water resources of the area.

In the government service from 1933 to 1937, he was in charge of soil and water conservation investigations of the Bureau of Chemistry and Soils, and the Soil Conservation Service. He coordinated activities at more than a dozen erosion experiment stations at strategic areas of the nation.

At Purdue University his undergraduate specialty was agricultural education and general science. At Rutgers, his master's degree specialty was plant physiology. His doctorate work was in soil chemistry and bacteriology.

## Sugar Legislation Hearing Obtained By Congressman

Congressman Paul Rogers has introduced a bill which will give Glades sugar producers a break, and thru his activity, coupled with others, the North Carolina Congressman who heads the House Agricultural Committee, has rearranged the schedule of his committee so that hearings may be had on the bill commencing June 25th.

The bill is not to reduce Cuba's or any other quota, but to allow cane growers to benefit by the increased consumption in the United States, percentage-wise.

Congressman Rogers has been urging that hearings be held on his bill, and in his reply to Congressman Rogers, Mr. Cooley stated: "Because approximately four hundred bills have been referred to the House Committee on Agriculture during the current session, many of which are of pressing importance, we have not been able to schedule hearings on Sugar Legislation, in which you are so intensely interested. Because of your great interest and an urgent request, I have today re-arranged our schedule, and I am glad to advise you that hearings will begin June 22nd."

Mr. Rogers said he felt this was a definite step forward in helping the domestic sugar producers in the United States. One example of the critical situation is that in the 8th District, where over seven million dollars' worth of sugar is stored and cannot be sold because of the present quota situation. This legislation does not decrease Cuba's sugar quota, but simply allows domestic producers to have a larger share in the increased consumption of sugar which resulted after the setting of the last quota.

## CITY OF BELLE GLADE USING MORE SMOKES

The City of Belle Glade received \$6,572.54, money available for distribution from cigarette taxes for the month of April, which is \$501.23 more than received during the month of March, according to information released by J. D. Williamson, director of the state beverage department which collects the tax.

Other Glades cities receiving the tax were Pahokee, \$3,044.94; Clewiston, \$1,975.19; South Bay, \$1,084.45. Of the whole amount, \$1,768,510.91 collected in the state, \$432,594.09 went into the general revenue fund and the remainder of \$1,335,916.82 was distributed to incorporated municipalities.

From where I sit... by Joe Marsh

Sad Note  
From The Bugle

All of us on the Clarion were  
shocked to learn that our prin-  
cipal rival in the newspaper field  
— the Belle Glade Bugle — might  
have to shut down.  
Crops were bad in Baliseville  
last year and one of their fac-  
tories moved out of town. Just  
temporary hard times, of course  
— but the Bugle needs help now  
if it is to survive.  
So, this paper is going to  
scrape up a little money to help  
tide them over, and we hope other  
local concerns will do the same.  
We've seldom agreed with them  
officially over the years — but

we want their competition to  
keep us on toes.  
From where I sit, this country  
needs papers with different points  
of view — just as it needs people  
with different ideas and tastes.  
You may prefer tea to a hot  
weather cooler... I generally  
consider a cold glass of beer. But  
if either of us could't express  
his opinion, and act on it, that  
would be "bad news" for the  
whole community.

NEW MEN'S STORE TO  
OPEN IN BELLE GLADE

Mr. and Mrs. Carl Braun-  
stein of West Palm Beach, have  
purchased the balance of mer-  
chandise from Gold's Depart-  
ment Store and are operating  
at the same address, 349 W.  
Avenue A, under the trade  
name of Florida Brothers Out-  
let Stores, thru June and early  
July.

They close during the sum-  
mer to make preparations for  
opening a complete Men's  
Store in the fall, with all new  
high quality merchandise, it is  
announced.

Many lawyers remain on  
hand from Gold's close-out sale,  
and Mr. Braunstein urges that  
they be picked up within the  
next week or so.

A native of Wooster, Ohio,  
Braunstein operates a store in  
that town as well as in Miami.  
Management of the new Men's  
Store will later be turned over  
to a local man, he stated.

Marked Increase In  
Florida Farm Values

Farm lands and buildings in  
Florida increased in value by  
\$1,217,000,000 as of March of  
this year.

The land itself accounted for  
\$886,000,000 of this sum and  
buildings for \$331 million, or  
about 27 per cent.

The total value represents a per-  
cent value of \$73.66 for lands  
and buildings, a gain of 8 per  
cent over March of 1954, the  
greatest rate of increase of any  
of the major averages was up  
two per cent.

The 1955 Florida value was  
higher on record for the  
state, being slightly above the  
revised high figure for 1953  
(\$724.0), the Florida  
Department of Commerce reported  
yesterday.

The expansion of agriculture  
and the increasing cash income  
of Florida farmers are credited  
in this week's business review  
of the State Chamber of  
Commerce and Industrial Division as  
the principal reasons for the up-  
ward trend in farm values.

In 1955 the income of Florida  
farmers totaled \$497 million  
more than in 1954, the highest  
last year. Only 1952 showed even  
a slight decrease from the  
previous year.

Florida's per acre land and  
building value was \$5.96 below the  
national average for March of  
this year, appreciably better  
than a \$10 difference in 1950.

May '55 Outstanding  
Month In Everglades  
Cattle-Agriculture

The Everglades is having one  
of its best agricultural and cat-  
tle raising years in history, ac-  
cording to representatives of the  
county agency's office.

H. L. Speer, Asst. County  
Agent, said the month of May  
made history in the Glades.  
He said the Belle Glade Live-  
stock Market sold a total of  
7,882 head of cattle which pro-  
duced a total of \$540,720—  
the highest total in the history  
of the market.

Speer also reported that nearly  
three million packages of  
vegetables had been shipped  
from the Glades this year—an  
other record.

County Agent M. O. Mounds  
said a different viewpoint on  
the county's mango crop—"be-  
low par both in quantity and  
quality."

DALEY RANCH BAYS ANGUS  
Daley Ranch at Belle Glade,  
recently bought seven purebred  
Angus-Angus bulls from  
M & N Ranch at Loxahatchee,

Miss Sara Diggs Is  
Honored By Rebekahs  
Miss Sara Diggs was honored  
at a shower and farewell party  
held at the home of Mrs. T. J.  
Diggs, 1111 S. W. 1st St., last  
night. The party was given by  
the Belle Glade Rebekah  
Lodge Tuesday night. She leaves  
for her home in Ft. Lauderdale  
next week, where she will re-  
tire.

She has been a member of  
the Belle Glade Club faculty  
for 13 years and will be great-  
ly missed in the community.  
Proceeding the shower and busi-  
ness meeting a delicious covered  
dinner was enjoyed by the  
group. Six members from the  
Gardenia Lodge, West Palm  
Beach were present and four  
members from the Golden Links  
Lodge.

Five Local Golfers Beat  
Champs, Nat'l Golf Day

Thirty-four golfers partici-  
pated in the National Golf Day  
observed by the Municipal Golf  
Club, according to local Pro  
Joe Ziemann. In the ladies divi-  
sion, two beat Patty Berg and  
one men beat Ed Furgol, with  
one man made a hole in one.

Patty Berg posted a 77 in the  
tournament and Ed Furgol a 72.  
Medals will be presented to win-  
ners when received.

Joe announces that the Wed-  
nesday weekly tournament will  
begin next week. Come out and  
play on your afternoon off.

Cow Trails Lead To  
Home Sweet Homes  
In "Toonerville"

Blasting and dredging on the  
west side of the Main Street  
bridge on the Hillsboro Canal  
has been completed. Grading  
work is now being finished by  
a smaller piece of equipment  
from Clemens Construction  
Company.

According to J. H. Perry, a  
representative of the project, a  
four road has been provided  
for residents living east of 3rd  
Street north of the canal. As  
the Hillsboro Canal, however,  
the canal, the right of way has  
been blocked and a trail has  
been made for basketball and vol-  
leyball.

Perry said no definite plans  
have yet been made for providing  
for residents living east of 3rd  
Street north of the canal. As  
the Hillsboro Canal, however,  
the canal, the right of way has  
been blocked and a trail has  
been made for basketball and vol-  
leyball.

**WED IN SOUTH BAY BAPTIST CHURCH**—Miss Sandra Feunette-Mobley, daughter of Mr. Maribell Mobley of Belle Glade, became the bride of Willie James Williams, son of Mr. and Mrs. A. J. Williams of South Bay, on Sunday, June 5, at the South Bay Baptist Church at three o'clock, the Rev. John Cooper, performing the double-ring ceremony.

The altar was decorated with tall baskets of white carnations, flanked by candelabra with lighted tapers against a background of potted palms. The wedding party took their places in front of a tall candelabra intertwined with ferns.

Earl Skuce of Belle Glade played nuptial music and the traditional wedding march. Mrs. Leland Hardy was soloist and sang, "Because."

The bride, given in marriage by her brother, Belvin Mobley, wore a ballerina-length all-over lace frock fashioned to a fitted bodice, full skirt, short sleeves and all-over matching lace mitts. A single strand of pearls was her only ornament. A nose-length white veil over a close fitting white lace cap completed her costume and she carried a white Bible topped with white carnations centered with a single purple orchid and showered with white satin ribbons.

Miss Dorothy Mobley was her sister's bridesmaid. She wore an ice-blue nylon frock fashioned with a fitted bodice with a ruffled lace V-shaped insert in the front, a full skirt, elbow length matching gloves, white hat and carried a fan-shaped bouquet of yellow rose buds and white narcissus.

Don Barstow was best man. Don Amund and Norman Amund were ushers.

The bride's mother chose a silver gray silk afternoon frock with black and white accessories and wore a white carnation corsage.

The bridegroom's mother wore a pink butcher linen frock, a matching pink hat and white accessories, and a white carnation corsage.

A reception followed at the home of the bridegroom's parents, Mrs. Thomas Williams was in charge of the bride's book. Mrs. Horace Williams cut the cake and Mrs. Clinton Boatwright, sister of the bridegroom presided over the punch bowl. The bride's table was laid with an all-over lace cloth centered with a miniature bride and groom. Miss Betty Ann Markham assisted with the serving.

Mrs. Williams was graduated last week with the class of 1955 of the Belle Glade High School. Mr. Williams graduated with the class of 1954 of the Belle Glade High School. He is a member of the FFA and the Golden Ram football team. He is employed as attendant at the Gulf Service Station in South Bay.

The young couple left on a week's honeymoon trip during which they will tour Florida, Georgia and Alabama, visiting their relatives.

They will make their home in South Bay in one of the new duplex cottages in the Fisher subdivision.

Bridegroom's mother, Mrs. Eugene Hardy, was her sister's matron of honor. She wore a ballerina-length gown fashioned identical to the bride's, made of pastel blue taffeta and she carried a nosegay of yellow and white daisies and wore a wreath of matching daisies in her hair.

Bridesmaids were Miss Ruby Cantrell, sister of the groom and Miss Clara Nell Jones, roommate of the bride at Graceville Bible Institute.

Their gowns were identical to the matron of honor, in pink and yellow taffeta.

David Stokes of Sarasota was best man for the bridegroom and Billy Joe Ratley, South Bay brother of the bride and Leonard Moore of Eaton Park were groomsmen.

Mrs. Cantrell, mother of the groom chose a printed nylon frock with white accessories and a corsage of pink rosebuds.

A reception followed at the home of Mr. and Mrs. Hardy at Eaton Park. A beautifully decorated three-tier wedding cake graced the serving table overlaid with a lace cloth. Fern and hibiscus were used around the base of the cutglass punch bowl. Serving cake and punch were sisters of the bride, Mrs. Edwin Dorsey of Lubbock, Tex., and Mrs. C. C. Lashley of Tampa. Miss Gwendolyn Lashley was in charge of the guest book. Later Mr. and Mrs. Cantrell

left on a wedding trip to points of interest in Florida. For traveling, the bride wore a skyblue orlon suit with navy and white accessories and an orchid corsage. Upon their return, June 12, the couple will be at home at their new residence in Graceville.

Mrs. Cantrell attended South Bay School and is a graduate of Belle Glade High School and attended the Baptist Bible Institute at Graceville. Mr. Cantrell is a graduate of Ft. Pierce High School and attended Baptist Bible Institute. At present he is student pastor at the Graceville Baptist Church.

Out-of-town guests were Mr. and Mrs. Edwin Dorsey, Lubbock, Texas; Mr. and Mrs. C. C. Lashley and daughter, Gwendolyn, Tampa, Gene Krutman, Tampa; Billy Joe Ratley, Mrs.

William Jeffries, South Bay; Mr. and Mrs. S. M. McAllister and Mr. and Mrs. Jack Mathewson and daughter, Mary V. of Belle Glade; Mrs. Esther Stokes of Sarasota.

**Party Compliments**  
**Joy Whitehurst**

Joy Whitehurst celebrated her 9th birthday last Thursday when her mother, Mrs. J. B. Whitehurst, entertained a group of friends at a swimming party at the Pahokee pool.

**New Members**  
Mr. and Mrs. Laurence Connel came by letter from the Pahokee First Baptist Church. The following are college students who are home for the summer and brought their letters: Suzanne Forster, Lakia Humphries, Leora, Pat, Sue and Jim Bill Ger. Adrian Rashley brought his letter May 22.

**Associational Meeting**  
June 7, a committee meeting was held at the First Baptist Church at which time plans were made for the Youth Rally July 26 to be held at the First Baptist Church in Belle Glade. Those attending this committee meeting were: Mrs. H. L. Speer and Mrs. Caraway from Pahokee, Mrs. Kias Durama and Mrs. Emory Powers from West Palm Beach, and Mrs. Mills Byrom, Mrs. U. W. Malcolm and Mrs. E. D. Humphries from Belle Glade.

**WMU Circles Met**  
Last Tuesday evening the Gladys Smith Circle met at the home of Mrs. Ed Rice and the Hannah Scoggins at the home of Mrs. Clyde Parrish. Tuesday morning the Ila Darden Circle met with Mrs. T. E. Strickland at her home.

### TRAINING UNION TO MEET

The Big Lake Associational Training Union will meet at the South Bay Baptist Church, on Tuesday, June 14 at 8:00 p.m. The women of the local church will serve refreshments at the close of the program.

### Presbyterian Circles Hold Regular Meeting

Mrs. David Motes was hostess to Circle No. 1 of the Evangelical Presbyterian Church, on Tuesday evening June 7, at 8 o'clock. The meeting was opened with devotional and prayer by Mrs. Wayne Ellis. The "talk about period" on General Fund agencies was given by Mr. Tommy Parker, and the Bible Study "The Struggle of the Soul" was given by Mrs. Motes.

Others present were Mrs. Sid Cox and Mrs. Dorothy Cumpson. Circle No. 3 met at the home of Mrs. Richard Murray Tuesday morning at 10 a.m. Mrs. Travis Zumpf opened the meeting with a devotional. The "Ideal of Humility" and Mrs. L. Price gave the Bible study "The Struggle of the Soul." Others present were Mrs. Randolph, Mrs. Roy Vandergriff, Mrs. Ruth Barron and Mrs. Ralph Pipes.

### The Smile Of God

"Most of the people who really matter in life are not famous," Babe Ruth once said. "No one ever heard of them except those who knew and loved them."

"I knew an old preacher once, whose hair was white, and his face shone. He was not trying to please the crowd, he was only trying to please his own immortal soul. Fame never came to him. I have written my name on thousands of baseballs, he wrote his name on just a few simple lines. I am listed as a great home-runner, yet compared to him I never got to first base."

We should learn this lesson from the statement by the great home-run king: that the smile of God on our lives is worth more than anything else.

Do not wait for applause. Nothing is drudgery if God's smile is upon it. You do not need to be a homeric hero, if you can write your name deeply in the lives and character of those you meet daily.

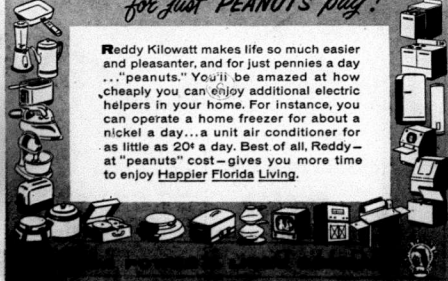

—Christians Digest.

### TEMPERANCE

We lead but one life here on earth. We must make that beautiful. And to do this, health and elasticity of mind are needed; and whatever endangers or impedes these must be avoided.

—Henry W. Longfellow

Reddy Kilowatt makes life so much easier and pleasanter, and for just pennies a day... "peanuts." You'll be amazed at how cheaply you can enjoy additional electric helpers in your home. For instance, you can operate a home freezer for about a nickel a day... a unit air conditioner for as little as 20¢ a day. Best of all, Reddy—at "peanuts" cost—gives you more time to enjoy Happier Florida Living.

Be transformed by the renewing of your mind.—(Romans 12, 2.)

Happy and strengthened is he who, in God's presence, cleanses his mind every morning of doubts, fears, anxieties, negative and resentful thoughts. Then, in devotion, he must replace them with positive, constructive thoughts—renewing his mind with the good that is God.

### Schedule For Baptist Camps And Assemblies

The schedule for summer camps and assemblies for the 1955 Baptist Church in Florida has been announced by Gus Johnson, assemblies director for the Florida Baptist Convention.

Read Acts 9:10-19. But the Lord said unto him: Go thy way: for he is a chosen vessel unto me, to bear my name before Gentiles, and kings, and the children of Israel. — (Acts 9:15.)

A vessel is a container. It can be used in act of love, as it was used to anoint Jesus; in an act of service, as it was used in washing the disciples' feet in the upper room; in an act of neglect, as when Pilate used the vessel to wash his hands.

The Bible refers to human beings as vessels. Pilate was a vessel, but he was filled with the wrong substance. Saul of Tarsus was filled with the Holy Spirit. He became Paul, the greatest Christian missionary. Our pastors are vessels of God. We should think of them like this, and let them pour their knowledge, training, and inspiration upon us.

We ourselves are chosen vessels of God. We need so to think of ourselves and pray that He will fill us for greater, more consecrated, more useful service in His kingdom.

### PRAYER

Father, we thank Thee that as we come to Thee in faith and with repentant hearts Thou dost forgive us our sins. Make us of vessels useful in Thy service. Grant us strength to be so used this day. For our Savior's sake. — Amen.

### THOUGHT FOR THE DAY

Our usefulness to God and our fellow men increases when we are filled with the Holy Spirit.

J. Richard Berry, Postman (Arkansas)

illary will be held July 18-23 at Tampa.

Harvey Bay Music camp will be held at Panama City, July 27-August 4, under the direction of W. G. Stracener, Jacksonville, music leader for Florida Baptists.

### Mrs. Duff Named To High Episcopal Office

Mrs. F. Deane Duff of St. Martin's Episcopal congregation, Clearwater, has been appointed to the office of Secretary of the Memorial Fund of the Woman's Auxiliary of the diocese of South Florida. Mrs. Duff, active in St. Martin's from the time of its organization as a mission, was notified of her selection by Mrs. Traversa Ewell of Miami, Secretary of all the Women's Auxiliary work of the diocese.

The appointment was made by Mrs. Wm. C. Williams of Delray Beach, president of the diocesan Auxiliary. The new secretary of the Fund will receive and report on all memorial gifts coming through the Auxiliary. She will be a member of the executive committee of the diocesan Auxiliary and so have a hand in the guidance of the women's work throughout South Florida.

**Vicar Warns Russians Have Not Changed**  
Father John Clarence Petrie, vicar of the Church of St. John the Apostle, Belle Glade, who oversees the Russians dates back to 1921 when he was vicar of the Overseas Training School of the YMCA, says that the present Russian group is right in Lenin himself. The Soviets must pursue a zigzag course, Lenin said, or as he expressed it, "two steps forward: one step backward."

We are now seeing one of the several backward steps the Communists have taken. Each time in the past they have reverted to their get tough tactic, vituperating the West and claiming final victory over the Christian nations. At the moment the Russian dictators find this step a good device for several

Announcement was made of the next quarterly conference to be held on June 19 at the Allapattah Lions Club in Miami. The Glades Women's Relief Society has resumed for the summer and will only meet in special sessions about the pressing need arise, according to Mrs. H. B. Walker.

### Community Methodist Bible School June 13

The Daily Vacation Bible School in charge of Mrs. James Wierwerg will start Monday, June 13 at 9:00 a.m. at the Community Methodist Church. The school will be in session from 9:00 to 11:30 a.m. June 13 thru June 24.

Dear Editor:

As the 1955 regular session of the 1955 session of the Florida Legislature ends I am making this report to your paper as promised during the campaign. On the whole I think this has been an outstanding session, perhaps one of the best in Florida's history because of the passage of such legislation of statewide interest as:

1. Full length turpentine.
2. Adoption of the reformed judicial code.
3. Legislation to protect and conserve property and wild life in Florida.
4. Improvements in the food control law.
5. Improvements to modernize our criminal code.

As the 1955 regular session of the 1955 session of the Florida Legislature ends I am making this report to your paper as promised during the campaign. On the whole I think this has been an outstanding session, perhaps one of the best in Florida's history because of the passage of such legislation of statewide interest as:

6. Legislation for teen-age driver training programs throughout the state.
7. Stronger financial responsibility law.
8. Reorganization and modernization of the State Road Board.
9. Legislation for the creation of an Animal Diagnostic Laboratory.
10. Appropriation for a state supported school of medicine and may other things including the study of Red Tide, and adoption of the various States plan to preserve our forests.

Among the local bills and general appropriations of local interest are the following:

1. We are particularly proud of our State Flag bill which will require the State Flag to be flown over all of the public schools of Palm Beach County.
2. A law calling for a study to determine the feasibility of a regular four year State supported college in Palm Beach County.
3. A series of bills pertaining to the improvement and modernization of the various city charters in our County.
4. Legislation which appropriates \$1,047,000.00 as capital outlay for the construction of the Palm Beach Junior College.
5. Appropriation for the construction of the Belle Glade Armory.
6. Appropriation for the construction of the Highway Patrol Station Building in West Palm Beach.
7. Appropriation for the Glades State Prison Farm.
8. Appropriation for the Everglades fire control district.
9. Laws relating to the improvement of the various Drainage Districts of Palm Beach County.
10. A law which provides that we do not have to file annual homestead exemption applications in the future until and unless we move from our present homes.
11. Establishment rate and traffic Bureau for Palm Beach County.
12. County Zoning act.
13. Special Census act for Palm Beach County.
14. Beach erosion law for Palm Beach County beaches.
15. Laws relating to the improvement of the various Drainage Districts of Palm Beach County.
16. A law which provides that we do not have to file annual homestead exemption applications in the future until and unless we move from our present homes.
17. Establishment rate and traffic Bureau for Palm Beach County.
18. County Zoning act.
19. Special Census act for Palm Beach County.
20. Beach erosion law for Palm Beach County beaches.
21. Laws relating to the improvement of the various Drainage Districts of Palm Beach County.

I would be delighted in my duty unless I also mentioned the fact that conservative legislation was passed in the field of teacher pay raise, retirement

systems, mental health assistance, specialized training scholarships and an appropriation to enlarge the new Mental Hospital in Broward County, and an authorization for a similar institution to be built in the near future.

While the session has required us to work hard we have worked conscientiously and cooperatively to the end, and I think the result of our endeavors reflects a record of real accomplishment. It has been a pleasure and an honor to have represented Palm Beach County in Florida's House of Representatives.

stant re-infection. Remember that if powdery mildew is not controlled, not only will leaves and stems be disfigured, but on many plants, particularly roses, and this fungus actually slows down or halts the opening of the flower.

One of the most widely used fungicides against powdery mildew is a 26 per cent calcium polysulfide spray called Ortho Spray.

This potent fungicide should be applied through a handy spray-type of garden hose spray gun. Fortunately, it can be combined with most of the new, multi-purpose insecticides, such as Improved calcium polysulfide Garden Spray M, so you can control insects and diseases at one time.

Remember when spraying for powdery mildew that thorough coverage is extremely important, because all above-ground parts of the plant may be affected. And in the case of roses, remember that leaves and young shoots are most seriously attacked. Hit the undersides of leaves, as well as the top sides, in order to destroy the millions of spores which cause this dreaded disease.

World War I Veterans Applying For Pensions

Retirement is drawing near for you World War I veterans and a lot of you are wondering if you will be eligible to draw a veterans pension when you retire and whether you will be eligible for any other benefits which might ease your retirement.

The broad outline of the eligibility requirements are listed below and by checking them, you should be able to decide if you are eligible for the benefits after you have retired.

The Veterans Administration must always make the final decision after you apply for benefits and all questions and answers should be very carefully considered on the initial claim or application.

For example, to be eligible for a pension as a World War I veteran you must meet three basic requirements:

1. You must be permanently

and totally disabled as a result of a disability having no connection with your service. A good rule to follow as to what the VA means by total disability is that you are unable to work at a job because of your disability and cannot earn the necessary money to maintain your livelihood. By permanent disability, the VA means that the disability will continue throughout the rest of your life.

Generally, if you have reached the age of 65 you will qualify under this requirement, but there is nothing automatic about it. It is still up to the VA to decide after you have applied for a pension.

2. You must have served under conditions other than dishonorable for at least 90 days, some parts of this service must have been served between April 6, 1917, to November 11, 1918, or up to April 1, 1920 for those who served in Russia.

3. You must have a yearly income of less than \$1400 if you have no dependents, or less than \$2700 if you have dependents. This is the most difficult of all requirements to explain since certain kinds of income will be counted and certain kinds will not. For example, the pension itself is not counted as income under the limitation. Neither is any other payment made by the Veterans Administration.

The final decision on what is to be counted as income and what is not, is determined by the VA after you file an Annual Income Questionnaire. This must be done when you ask for a pension or at the beginning of each year after you start drawing the pension.

When filing for a claim or applying for veterans pension it is very important that the veteran submit all the information available and have the claim or application presented to the VA in "One Package" so to speak.

Any county service officer will be glad to assist veterans and their dependents when making applications for G. I. Benefits. And remember, the Veterans Administration makes the final decision on all claims and applications, not the County Service Officer.

## Ground Observers Plan July Alert

The Belle Glade Ground Observer Corps met Thursday afternoon to map plans for the 24-hour alert to begin July first. J. N. Paff, chief observer, said plans called for allowing each observer to be on duty two hours and if enough volunteers were recruited, only one hour watches would be necessary. Vernon Dexter, local civil defense chief, was not available for comment on the round-the-clock spotting task. He is attending engineering classes at the University of Florida in connection with his occupation. Paff made it clear that any one interested in spending time with the Corps should contact him or other members of the unit to arrange for free training. The 24-hour spotting duty is in connection with a nationwide directive issued earlier this spring.

It is not known at this time whether the Belle Glade unit of the Ground Observer Corps will have representatives to Tallahassee for the All-Florida Civil Defense College, June 27-July 1. According to State Civil Defense Operations Officer, Colonel R. Stewart, the college is an extensive five-day training plan in the latest concepts and techniques of preparing their home communities for enemy attack and for the proper care of thousands of homeless evacuees from bombed areas of the state.

James E. Keene, State Director of Civil Defense, said an open invitation is extended to leaders in local civic organizations, municipal and county officials, police, fire, welfare, engineering, transportation, plant protection and other officials or key workers with civil defense responsibilities.

**COUNCIL OKAYS 6%:** (Continued from Page One) The non-exclusive agreement with FPAI and thereby receive the rebate which had previously been set aside for recreation purposes.

In other action at the Wednesday night session, the council passed a low bid of \$550 from Grant Aonix here to provide aerial views of the city and the tax maps contract was awarded to John T. Pickett of Sarasota for a 60-day contract at \$500.

Certain properties belonging to Robert Cooper and Fletcher Dumes of the city were ordered demolished when it was reported that the board of appraisers found them in more than 50 per cent of deterioration.

The city was asked to provide city water to a subdivision outside the city limits. The council found it could not act on the matter before hearing from the city manager and city attorney. The proposal was tabled until next meeting.

Deeds for city easement for streets, water and gas mains were received for sections of Avenue F and Avenue A.

The city sanitary code was amended to conform with state laws, and Sections 1 and 2 amended dealt with specifications of septic tanks and the destruction of unwholesome food.

The city manager was asked to look further into the taxi fare trouble. It has been reported that several persons charged that city cabs were overcharging within the city. Manager Robinson was asked to find the cost of installing meters in the cabs to prevent the overcharge.

**Joint Installation Held Monday Night For Legion-Auxiliary**

The Belle Glade American Legion Post 20 and its Auxiliary held installation ceremony for officers Monday night at the Legion Hall here. Homer Brooks and Mrs. Ruth Pent were installed as commander and president of the Auxiliary.

Brooks declared, "I'd rather have had report at the end of the year than to make a lot of promises now." He envisioned plans to build up the post's honor guard. Other plans for the hall were not definite at this time.

Other Legion officers installed are: C. B. Pentz, first vice commander; William Eggleston, second vice commander; Davis R. Kieckhefer, third vice commander; Roy Baskin, service officer; and adjutant, Morris Coleman. Finance: Curtis Ladd, Chaplain: William, Sgt.-at-Arms: Guy Wilson, Asst. Sgt.-at-Arms: Historian, Herbert Priest.

F. Gates, 9th district commander from Ft. Lauderdale and Mrs. Grace Fallance, 9th district auxiliary president from Ft. Lauderdale were in charge of both installations.

Others on the team included: **FOR RENT—**Furnished apartment, phone 2833. 6-3-treatment.

Assisting Mrs. Fallance was Mrs. Emory Gustafson as Sgt.-at-Arms.

Lou Duncan, vice department commander for the southern area, of Ft. Lauderdale; William Allen, innkeeper, past district commander, South Bay; and Commitment Merle Mead addressed the group briefly following the ceremony.

A buffet supper ended the evening's activities there.

## Belle Glade Joins In Practice Game

Belle Glade journeyed to Stuart Sunday, and was sent home on the morning of a 3-2 ball game. It was a practice game for Belle Glade, while Stuart had been playing for several weeks. Doing the pitching for Belle Glade were Bud House, and Perry Rigion, who took over in the sixth inning.

Stuart broke into the scoring in the first inning, scoring one run on two hits and one Belle Glade error.

They scored again by scoring two runs in the third and on a 2-base hit by Sam Criseman with two men on base. Belle Glade was held scoreless until the eighth when Ed Klanjic and Charlie Martine crossed the plate on a single by Perry Rigion.

Doing the hitting for Belle Glade were Ed Klanjic with a triple to the right-centerfield wall, and Chuck Gordin, Charlie Martine, and Perry Rigion, each with a single.

Belle Glade will be out for revenge next Sunday, when they return to Stuart for an afternoon game starting at 3:30. The Belle Glade team will leave at 11 A. M. Harris Service Station at 12:30 sharp.

## Seven Boys Leave For Air Force Base

Seven local boys left Miami on Tuesday to report to Lackland Air Force Base, San Antonio, Texas for basic training. Richard Sanders, J. F. Wilcher, Eddie Robinson, Paul Miller, Harold Rennolds and Mack Booth graduated last Thursday night at Belle Glade without incident.

School Avera Malloy who had quit school was the seventh. On Sunday afternoon a large turnout of school and church students were at the bus station to see the group off to Miami, where they took examinations.

**RESIDENTS PETITION FOR RESTRICTED SALE OF ALCOHOLIC BEVERAGES**

Restricted sale of alcoholic beverages in a section of the Everglades was taken under study by the county commission this week, after residents petitioned the board for such a restriction.

Commissioner Paul Rardin, Canal Point, presented the petition to the commission, signed by about 100 residents in the Belle Glade area, asking the board to limit liquor establishments to the one now doing business in the area.

The petition was also supported by a letter from Federal Housing Authority representatives operating the Chosen military workers camp.

**MARRIED SUNDAY—** Miss Eleanor Lee Walker became the bride of Johnny Oscar Schlechter, Sunday, June 5, at the First Methodist Church in Pahokee. The double-ring ceremony was performed by Dr. Rembert Gay.

The bride is the daughter of Mr. and Mrs. William Robert Walker of 215 Second Ave. Pahokee, and Mr. Schlechter is the son of Mr. and Mrs. W. E. Schlechter of Chosen.

Baskets of white gladioli and chrysanthemums in a setting of potted palms decorated the front of the church and arrangements of chrysanthemums were placed in the windows.

Mrs. Wilma McClenahan played the wedding music, "To A Wild Rose" and "Dream of Love" Elmer B. Elliott, Jr., soloist, sang, "I Love You Truly" and "Because."

Given in marriage by her father, the bride wore a white gown designed over skinner satin featuring a fitted bodice, scoop neckline and long sleeves of chantilly lace, re-embroidered with iridescent sequins. The chapel length skirt of nylon tulle was fastened with lace applique flowers, sprinkled with sequins. Her elbow length veil of illusion was fastened to a matching crown edged with tiny seed pearls.

Standing, left to right, Mrs. Carl Hayes, treasurer; Mrs. D. C. DeHaven, corresponding secretary; Mrs. Herbert Beck, recording secretary; Mrs. Ivan Van Horn, installing officer.

Mrs. Ivan Van Horn, past director of District 6, Florida Federation of Garden Clubs, presided over the installation and presented each officer with a lovely corsage of appropriate color signifying the duties of office.

The U-shaped luncheon table was beautifully decorated with pink double and single hibiscus arranged on sprays of serotum cherry foliage.

Mrs. Charles Beck gave the invocation. A brief benediction was presided over by Mrs. Zump in which monthly and yearly reports were given by officers and chairmen.

Mrs. C. J. Aspey, Mrs. George Farnall and Mrs. Zump were named on a committee to buy a number of garden books. Mrs. H. R. Gering, chairman of the nominating committee presented names of officers to replace resignation and unanimously the following were elected: Mrs. Ivan Van Horn, Mrs. Lennie Warren and Mrs. D. C. DeHaven.

Mrs. C. J. Aspey, award chairman, presented seven books on flower arranging as prizes for the monthly meeting contests for the year. In the flower arrangement contest, Mrs. Ralph Kirk and Mrs. Irvin Zump tied for first place; Mrs. James Spence won second and Mrs. H. R. Gering, third.

In horticulture, Mrs. Irvin Zump won first; Mrs. R. W. Creech, second; and Mrs. Margaret West, third.

Mrs. Roy Bair and Mrs. L. L. Jones were in charge of the arrangements of the affair and Mrs. Harold Reidel was in charge of the installation service.

The introduction was delivered by Victoriano, Laura H.

**Local 4-H Girls Leave For FSU**

Dorothy Irvin and Bonnie Williams left Monday morning for Tallahassee where they will attend the 40th annual State 4-H Club Girls' short course at Florida State University. They were accompanied by Mrs. T. W. Irvin, Dorothy's mother, who was selected to be a local leader at the short course.

The local girls are among 500 4-H girls from all over the state welcomed officially by Dr. Doak S. Campbell, president of FSU, Monday night.

The entire week was marked by new experiences of fun and fellowship.

On Tuesday their sightseeing trip to nearby Wakulla Springs, followed by an evening program featuring 4-H public speaking contestants and special music.

Wednesday, James E. Gorman, managing director of the Florida Chain Store Council spoke to the group on "Getting Along with Others." They held their annual play night the theme of which was a 4-H version of the Olympics at Doak S. Campbell stadium.

On Thursday the entire 4-H delegation will visit the Governor's mansion, to which they have received invitations and they will also tour the Supreme building and the capitol center. A fashion show will be presented Thursday night when they will model clothes they have made.

On Friday morning, Gov. LeRoy Collins will address the girls on "You As Citizens." Friday night election and installation of officers will be held.

At the May 27th meeting of the county school board, Charles M. McCurdy was named to head the new Lakeshore High School, Belle Glade. McCurdy, now principal of Lakeshore Elementary School, will take over his new duties when the new \$250,000 building is opened this fall.

In the new job the 42-year-old educator will head both the high school and the elementary school. Nineteen teachers compose the new staff for the school, and the enrollment of the new school plus the elementary will number over 800.

Of the 800 some 600 students will be in high school grades. These figures are the anticipated enrollment and are subject to change.

In discussing the new high mark for enrollment McCurdy called attention to the ever-increasing school enrollment in the Glades area, particularly in Belle Glade. This is a determining factor pointing to the ever-growing and enlarging Glades area.

McCurdy pointed out that he would have an assistant to supervise the grade school and that Everglades Vocational High School would continue to educate grades 6 thru 8 under the leadership of its principal, St. Elmo Greux.

McCurdy was born August 10, 1913 in Titusville and attended Memorial College in St. Augustine, Fla. He received his M.S. in education at Florida A&M University.

He taught one term in Levy County then moved to Jackson County where he remained eight years before coming to Palm Beach County. He became principal of the old elementary school in August of 1944 when the school was a six-room frame building located where the present building now is.

That building had been built just after the 1928 hurricane here. On Armistice Day in 1949 the new Lakeshore School was opened, headed by McCurdy, on its present 20-acre location.

The school's enrollment was 321 under the supervision of McCurdy, and the school's enrollment was just short of 700 students with 19 on the faculty.

With regard to the future, McCurdy said that the new high school would offer a few more subjects heretofore not offered at Everglades Vocational High. They include driver education, art education. The students will have access to a new library for the first time.

McCurdy said no definite plans had been laid for the formal opening of the new high school; however, it was assumed that a dedicatory ceremony or an open house would be held at the opening of the fall term.

While discussing the new school it was learned that further steps have been made concerning the problem of educating the school children of the migrant workers. Through the co-operation of the Inter-racial council here, and several state and national organizations the problem of changing schools so much has been studied and plans have been arranged to make the students feel that they are a part of the school. One example of this is that new students here are encouraged to relate to their classmates the experiences they have had at other locations in the United States.

Although much of this problem has been worked out, McCurdy said even more study was due the problem in order to provide an adequate education for all.

This new streamlined program and new high school facilities for Negroes is a definite sign of progress for the Everglades.

## Many Opportunities For College Grads In Fla. Merit System

College graduates will have many opportunities in public welfare and public health sanitation with state and county agencies this summer, according to an announcement of the Florida Merit System in Tallahassee this week. Expansion of the state welfare program to include aid to the totally and permanently disabled will require a number of additional visitors in various parts of the state, while the usual number of vacancies will also need to be filled.

In the public health field vacancies for sanitarians will exist in Broward, Hillsborough, Madison, and Taylor Counties, and in addition a class will be selected for in-service training at the field training center in Gainesville beginning the first part of July.

The appointment of welfare visitors and sanitarians will be made after competitive examinations to be conducted in several centers throughout the state. Recent college graduates

interested in a career in public welfare or public health sanitation are particularly urged to apply. They will be eligible for graduate scholarships after one year of service. Full information concerning nature of positions, salaries, minimum qualifications and application forms may be obtained at local offices of the health and welfare departments, the State Employment Service or direct from the Florida Merit System in Tallahassee.

## Laying First Tele. Transoceanic Cable Begins This Month

Laying of the world's first transoceanic telephone cable—to span the Atlantic between Newfoundland and Scotland—is to begin June 22, it was announced here today by Ed Reddy, District Manager of Southern Bell Telephone Company.

The transatlantic voiceways are to be extended 1,900 miles westward from Newfoundland to the eastern tip of Nova Scotia via another submarine cable, and from there to the United States over a 575-mile radio relay system.

The project is a joint undertaking of American Telephone and Telegraph Company, the British Post Office and Canadian Overseas Telecommunication Corporation and will cost about \$40,000,000. Service will be established late in 1956.

Mr. Reddy quoted Henry T. Killingsworth, vice president of A. T. & T. in charge of the Long Lines Department, as saying the first of a two-cable system would be spun out across 2,000 miles of ocean bottom by summer's end. Summer is the only time the Atlantic is calm enough to permit such an undertaking. Laying operations will start at Clarendville, Newfoundland, and be completed at Glasgow, which is on the west coast of Scotland about 60 miles from Glasgow. The second cable to be laid from Scotland to Newfoundland in the summer of 1956.

The new cable system will greatly improve the telephone service between the United States and Europe.

States, and Great Britain. This service was inaugurated in 1927 and is handled entirely by radio-telephone.

The transatlantic cables and the Newfoundland-Nova Scotia cable will be laid by HMCS Monarch. The ship is now loading the first segment of deep-sea cable at the Simpler Wire and Cable Company plant at Newington, N. H.

A radio relay route, connecting with the cable, will pass within sight of the grave and former home of Alexander Graham Bell, inventor of the telephone. Bell was among the first to believe that this continent could be connected to Europe by voice cable.

Telephone scientists have spent many years developing the amplifiers needed to make

a deep-sea voice cable operable. Unique in quality, design, and structure, these amplifiers give weakened voice currents new strength as they speed along their 3,000 mile underwater journey.

Each of the transatlantic cables will be equipped to transmit speech in one direction.

Thus voices from New York will travel eastward over one cable and voices from London will be carried westward over the second cable. The system will be able to carry 36 conversations at the same time, almost tripling the present radiotelephone capacity between the U.S. and Great Britain.
